## Project Title – British Shorthair

https://en.wikipedia.org/wiki/British_Shorthair

I would like to build this site with multiple pages. I would like it to have a horizontal bar on the top that navigates the microsite, which can be organized as below. I hope this site can show people the cuteness of the British Shorthair cat and some knowledge of it. There are plenty of images on the Wikipedia page, but if you can find some cuter images, please do!

- **Home page**
  - The introduction and general information for the British Shorthair cat

- **History**

- **Description**
  - Appearance
  - Coat, color, and patterns
  - Temperament

- **Health**

- **Popular culture**
  - List several examples with a picture or related external links

- **Sources**
  - All the sources, including the Wikipedia page.
